EXPERIENCE

UX/UI APPRENTICE

Chaos Frolic
Oakland, CA
January 2015-July 2016

- Wireframes, sticker designs and logo designs helped win over difficult stakeholders and raise first round of funding.
- User personas helped developer empathize and focus on user goals.
- Identified usability and data-visualization issues through testing.
- UI and level design for 2D and 3D game-play in Unity.

MONDO IS PHAT

- Available on the Android store.
- Created and launched under the challenge of learning a new framework in one week with Phaser, JavaScript, HTML, CSS, IntelXDK and Cordova.
- Rapid user-research before and after alpha-launch.
- Wireframes, user-personas, thumbnails, splash pages and icons created using Sketch.

DAILY UI

- Built with Unity 3D platform and C#.
- Designed for mobile, demo-site utilizes WebGL for desktop.
- Daily UI (#dailyui) project involves creating 100 UI-pieces (in progress).

BREAKR

- Built as part of a distributed team utilizing agile workflows with React, Redux, Node.js, Express, MongoDB, Git and Github.

RESPONSIBILIPUPPY

- Front-end game created using React, Redux and SVG Animations.
